

# Retro Style Gas Scooter

This gas scooter features a retro design with cream and orange coloring. It is equipped with a single-cylinder engine, exhaust system, and a rear luggage rack.

## Overview

### Classic Retro Design

This retro-style gas scooter combines vintage aesthetics with reliable modern performance. Featuring distinct flame detailing and chrome accents, it offers a stylish solution for urban commuting. The design includes practical elements such as a comfortable cream-colored seat and an integrated rear luggage rack for added utility.
