

Reusable Corded Earplugs for Noise Reduction

These reusable earplugs are designed for noise reduction and hearing protection. A connecting cord allows for easy retrieval and prevents loss when not in use.

Product Overview

Professional Hearing Protection

These reusable corded earplugs are engineered for effective noise reduction in demanding environments. Crafted from soft, flexible materials, they ensure comfort during extended shifts in industrial or construction settings. The integrated cord design promotes convenience, allowing for quick retrieval and preventing loss when the earplugs are not in use.

Design Features

Design	Corded
Reusability	Yes
Material Characteristics	Soft, Flexible

Applications

Suitable Environments

- Industrial Facilities
- Construction Sites
- Recreational Use

Primary Function

Noise Reduction • Hearing Protection
