

Reusable Corded Silicone Earplugs

These reusable earplugs are made from soft silicone for comfortable wear. They feature an attached cord to prevent loss and for easy access.

Product Overview

High-Performance Hearing Protection

These reusable corded silicone earplugs are designed for superior noise reduction in demanding environments. Crafted from ultra-supple silicone, they conform naturally to the ear structure to ensure a safe, sanitary, and comfortable fit. The integrated cord design provides convenient storage and helps prevent loss, making them an ideal choice for operators who need to maintain acute hearing awareness while working in noisy surroundings.
