

Reverse Osmosis Water Storage Tank

This water storage tank is designed for reverse osmosis (RO) systems. It is available in 2.0G, 3.0G, 3.2G, and 4.0G capacities.

Product Overview

Professional RO Water Storage

This high-quality reverse osmosis water storage and delivery tank is engineered for reliable performance in water purification systems. Featuring a durable construction, it is designed to maintain consistent water pressure and flow for residential or commercial RO applications. With a maximum working pressure rating of 100 psi, it provides a safe and efficient solution for your water storage needs.

Technical Specifications

Model Capacity	3.0G
Maximum Working Pressure	100 psi
Required Air Charge	5-7 psi

Certifications and Logistics

Barcode	6945377500057
