

RG11U Coaxial Cable with 18/2 Power Cable

RG11U coaxial cable with 18/2 power cable for transmitting high-frequency signals with an additional power supply. It features a solid copper conductor, foam polyethylene insulation, aluminum foil shield, and a braided shield for optimal signal protection.

Product Overview

Professional Grade Signal & Power Transmission

The RG11U coaxial cable with integrated 18/2 power cable offers a comprehensive solution for high-frequency signal transmission paired with reliable power delivery. Engineered with a solid copper conductor and advanced shielding, it ensures minimal signal interference in demanding environments. This versatile cable is built for both indoor and outdoor applications, making it an ideal choice for robust electronic system installations.

Cable Specifications

Conductor Material	Solid Copper
Insulation	Foam Polyethylene
Shielding	Aluminum Foil, Braided Shield

Power Component

Conductor Gauge	18 AWG
Number of Conductors	2
Power Insulation	PVC

Application

Recommended Environment

- Indoor Applications
- Outdoor Applications
