

# RG6 Coaxial Cable Compression Connectors - 20-Pack

These RG6 compression F-type connectors are designed for creating secure and reliable coaxial cable connections. The compression design ensures a tight, weatherproof seal, minimizing signal loss and preventing corrosion.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Connectivity

These RG6 compression F-type connectors are engineered to provide secure, high-performance connections for coaxial cabling systems. The compression design creates a robust, weatherproof seal that effectively minimizes signal loss while preventing long-term corrosion. Perfect for professional installations in TV, satellite, and modem applications, these connectors ensure reliable signal integrity and ease of use.

## Specifications

Connector Type	F-Type Straight
Cable Compatibility	RG6 Coaxial
Pack Quantity	20
Installation Method	Compression Tool

## Features

Key Benefits	Weatherproof Seal, Signal Loss Reduction, Corrosion Resistant, Professional Grade
--------------	---

## Applications

### Common Applications

- Cable Television Systems
- Satellite Receiver Connections
- Broadband Modem Cabling
- Antenna Installations
