Overview

Professional Rice Processing Solution

This combine rice milling machine integrates essential functions including husking, polishing, and grading into a single, efficient unit. Designed for industrial reliability, it features a robust metal construction capable of handling significant daily volumes. The system is engineered to minimize rice breakage while maximizing extraction rates, making it an ideal choice for small to medium-scale production facilities.

Technical Specifications

Available Daily Capacity

- 30 tons
- 50 tons
- 70 tons
- Over 100 tons (large-scale projects)

Model Variants

Model	Status
NZJ-10/8.5	Award-winning
SB-10D	Award-winning
SB-30	Popular

Available Series

NZJ Series, SB Series
