

Right Hand Drive Multi-Purpose Van

This multi-purpose van is configured for right-hand driving. It offers a spacious interior with multiple rows of seating and sliding doors for convenient access.

Overview

Versatile Multi-Purpose Solution

This right-hand drive multi-purpose van is engineered to provide exceptional utility for both passenger transport and commercial logistics. Featuring a robust front-engine layout and a spacious, configurable interior, it ensures passenger comfort alongside practical cargo capacity. The exterior design incorporates user-friendly sliding doors and modern styling, making it an ideal choice for professional fleet operations.
