

Rigid Inflatable Boat (RIB)

This inflatable boat features a rigid hull, suitable for recreational boating, fishing, or rescue operations. It includes inflatable tubes for buoyancy and stability, along with a rigid hull for improved performance and handling.

Product Overview

Rigid Inflatable Boat (RIB)

This Rigid Inflatable Boat (RIB) combines a high-performance rigid hull with inflatable buoyancy tubes to provide exceptional stability, safety, and maneuverability. Designed for versatility, it is suitable for a wide range of applications including professional rescue operations, fishing, and recreational boating. The craft features a multi-chambered inflatable system and robust hull construction for reliable performance in various water conditions.

Technical Specifications

Safety Features

- Multiple inflatable chambers
- High-buoyancy tube design
- Enhanced stability rigid hull

Construction Materials	Reinforced PVC, Hypalon
Hull Type	Rigid

Performance & Compatibility

Primary Applications

Recreational Boating • Fishing • Rescue Operations

Propulsion Type	Outboard motor
