

# RJ11/RJ45 Modular Connectors and Boots

These are modular RJ45 and RJ11 connectors used for various networking applications. They are available with PVC boots in sizes of 5.5mm and 6.5mm.

## Product Overview

### Comprehensive Networking Connectivity Solutions

This collection of modular connectors and PVC boots provides a versatile solution for various networking applications, supporting configurations from 4P4C up to 10P10C. Designed for compatibility with CAT5E and CAT6 cabling, these components are available in multiple styles, including short body, insert bar, and through-pin designs. The accompanying PVC boots ensure secure cable management and strain relief, offering a complete termination solution for professional installations.

## Technical Specifications

### Cable Compatibility

CAT5E UTP • CAT5E FTP • CAT6 UTP • CAT6 FTP

### Design Variants

- Short body
- Insert bar
- Through-pin

### Connector Configurations

4P4C, 6P2C, 6P4C, 8P8C, 10P10C

## Accessories

### Available Boot Sizes

**5.5 mm**

Small Boot Diameter

**6.5 mm**

Large Boot Diameter

### Material

PVC
