Product Overview

Professional Airless Line Striper

This professional-grade cold paint airless marking machine is engineered for high-efficiency line striping on roads and athletic fields. Featuring a robust gasoline engine and dual-gun capability, it ensures consistent output for medium-sized projects requiring precise solid or intermittent lines. Its advanced laser guide and digital control system make it an ideal choice for contractors looking for reliability and high productivity in pavement maintenance.

Technical Specifications

Core Performance

5 L/min

Max Flow Rate

220 bar

Max Pressure

4000 W

Power Output

Engine Type

200cc Gasoline Engine

Maximum Tip Size

0.025 inch (Dual Gun Configuration)

Capabilities & Features

Key Capabilities

- Supports dual-gun simultaneous spraying
- Laser light guide for straight-line accuracy
- Digital display for precise operation control
- Front steering wheel with fixed-angle locking
- Compatible with low to high viscosity paints
- Flow-through manifold filter to reduce tip clogs

System Attributes

Airless System, Cold Paint Ready, Piston Pump, Stainless Steel Fluid Section

Logistics & Warranty

Weight and Dimensions

Metric	Value
Net Weight	122 kg
Gross Weight	127 kg
Dimensions	110 x 76 x 92 cm

Warranty

1-Year Limited Warranty
