

Road Racing Bicycle

This road bicycle features a lightweight frame, drop handlebars, and high-pressure tires optimized for speed. Equipped with a multi-speed drivetrain, it provides a wide range of gears for various terrains.

ZH-006

Overview

High-Performance Road Racing Bicycle

The ZH-006 is a precision-engineered road racing bicycle designed for speed, efficiency, and performance on paved surfaces. Featuring a lightweight frame construction and aerodynamic geometry, it offers an optimal balance of stiffness and comfort for competitive cycling and fitness training. Equipped with a versatile multi-speed drivetrain and responsive braking systems, this bicycle ensures reliability and control across varied road terrains.

Technical Specifications

Intended Use

Road Cycling • Racing • Fitness

Model Identifier	ZH-006
Wheel Size	700c
Braking System	Caliper brakes
Key Features	Lightweight Frame, Drop Handlebars, High-Pressure Tires, Multi-speed Drivetrain
