

Roadside Emergency Warning Triangle

This warning triangle is designed to alert other drivers to a stationary vehicle during a breakdown or accident. It features a bright red reflective surface and a foldable base for easy deployment and storage.

Product Overview

Roadside Emergency Warning Triangle

The YJ-5F-1 warning triangle is a vital safety device engineered to alert oncoming traffic to a stationary vehicle during roadside emergencies. Its triangular frame features high-visibility red reflective surfaces for maximum day and night performance. Designed with a foldable base, it ensures rapid deployment and space-efficient storage for all types of vehicles.

Key Features

High Visibility, Reflective, Foldable Design, Roadside Safety
