

Roadside Emergency Warning Triangle

This is a reflective red warning triangle for roadside safety. It features a foldable base with wire supports.

Product Overview

Roadside Emergency Safety

This professional-grade warning triangle is an essential safety tool for vehicle operators to signal hazards on the roadside. Engineered with high-visibility materials and a robust foldable base, it ensures stability in various weather conditions. The product is fully compliant with international safety standards, making it a reliable choice for commercial and passenger vehicle equipment fleets.
