Product Overview

Smart Cleaning Performance

This advanced robotic vacuum cleaner offers a comprehensive floor care solution by integrating sweeping, vacuuming, and mopping in one efficient unit. Designed for large spaces, it features high-capacity battery technology and smart navigation to ensure deep cleaning across multiple surfaces. With intelligent features like carpet detection, mobile monitoring, and voice control, it provides a seamless and automated maintenance experience for modern environments.

Performance Metrics

Battery Performance

6400 mAh

Capacity

4 hours

Runtime

450 sqm

Cleaning Area Capacity

Barrier Height Clearance

20 mm

Capacity and Design

Container Capacities

Component	Capacity
Dust Cup	450ml
Water Tank	150ml

Features

Platform Compatibility

- Amazon Alexa
- Google Assistant

Key Features

Mobile Monitoring, Voice Control, App Remote Control, Automatic Suction Adjustment, Motorized Water Seepage, HEPA-12 Filtration
