Product Overview

Intelligent Robotic Cleaning Solution

This advanced robotic vacuum cleaner offers a hands-free solution for maintaining clean floors across various surfaces, including hardwood, marble, and carpet. Equipped with intelligent sensors, it effectively avoids obstacles and stairs, while the integrated UV light assists in eliminating bacteria for a healthier environment. The unit features multiple cleaning modes and a cyclone vacuum system, ensuring thorough removal of dust, pet hair, and debris.

Key Features

Key Capabilities

- Touch Screen Control Panel
- Automatic Docking and Recharging
- UV Light Bacteria Elimination
- Virtual Wall Boundary Setting
- Obstacle and Stair Detection
- Remote Control Operation

Performance Metrics

Performance

2.5 hours

Max Run-time

65 dB

Noise Level

330 ml

Dust Bin Capacity

Technical Specifications

Electrical

Parameter	Value
Voltage	DC 14.4V
Power Consumption	24W
Battery Type	Ni-CD 2200mA

Physical Characteristics

Attribute	Detail
Color	Red
Net Weight	3.2kg
Gross Weight	5.0kg
Dimensions	34cm diameter x 8.6cm height

Compliance and Usage

Cleaning Modes	Spot Cleaning, Auto Cleaning, Wall Following
