Product Overview

Professional Horizontal Rotary Tumbler

This horizontal rotary tumbler is engineered for precision polishing and deburring of rocks, stones, and small hardware parts. Featuring a double-container configuration, it offers a compact design that is easy to store and transport. The machine utilizes a streamlined mechanism with fewer moving parts to ensure quiet operation during extended use.

Technical Specifications

Operational Benefits

- Low noise emission
- Minimized moving parts
- Compact and portable
- High stability base

Design Type	Horizontal rotary
Number of Containers	2
Primary Applications	Stone polishing, Grit processing, Oil removal, Deburring, Hardware finishing
