

Rocket-Shaped Handheld Vacuum Cleaner

This handheld vacuum cleaner is designed in the shape of a rocket. The compact and light-weight design is suitable for quick cleanups in the house, car, or tight spaces.

Product Overview

Innovative Rocket-Design Handheld Vacuum

The ZB40-35 handheld vacuum cleaner combines a unique, compact rocket-shaped design with efficient cleaning power. Perfectly engineered for quick cleanups in vehicles, tight spaces, and around the home, this lightweight unit ensures portability without sacrificing suction performance. Its user-friendly construction includes a washable filter and an easily accessible power switch for straightforward operation.
