

Roller Chain Sprocket 10B with 20 Teeth

This roller chain sprocket is compatible with 10B / 5/8" pitch roller chains. It features 20 teeth and a bushing type construction for enhanced durability.

Product Overview

Industrial Roller Chain Sprocket

This precision-engineered roller chain sprocket is designed for high-efficiency power transmission in industrial applications. Compatible with 10B/5/8" pitch roller chains, it features 20 teeth to ensure optimal engagement and drive reliability. Its robust construction makes it an ideal component for heavy-duty machinery and industrial power transmission systems.

Technical Specifications

Chain Number	10B
Pitch	5/8 inch
Number of Teeth	20
Bushing System	1610 Bushing

Product Features

Compatibility & Features	Power Transmission, Industrial Machinery, 10B Chain Compatible, High Durability
