Overview

High-Performance Modular Conveyor Solution

This roller top modular plastic conveyor belt is engineered for efficient box and flat-bottomed item transport across diverse industrial environments. Its modular design facilitates easy maintenance and customization, while the integrated roller top surface significantly minimizes friction during operation. Built with food-grade compatible materials, it offers exceptional durability, chemical resistance, and a high load-bearing capacity of up to 1.2 tons per square meter.

Technical Specifications

Max Load Capacity

1.2 tons/m²

Load Capacity

Pitch	45 mm
Thickness	19.5 mm
Minimum Width	195 mm
Open Area	52 %
Rod Diameter	5.8 mm
Working Temperature	-40°C to 260°C

Configuration & Materials

Available Colors

White • Blue • Gray • Nature • Dark-brown

Sprocket Options

- 8T Sprocket
- 12T Sprocket
- Square Bore
- Round Bore

Material Options

PP, POM, PE, PA

Features & Compliance

Design Capabilities

Feature	Status
Curve Compatibility	Yes
Flight	No
Side Guard	No

Regulatory Approval

FDA, EU

Applications

Industry Applications

- Meat & Poultry Processing
- Seafood
- Bakery
- Snack Food
- Fruit & Vegetable
- Automotive
- Tire Manufacturing
- Packaging
- Printing & Paper
- Postal
- Corrugated Cardboard
- Can Manufacturing
- PET Manufacturing
- Textile
