Overview

High-Efficiency Roller Top Conveyor Belt

This modular plastic conveyor belt is engineered specifically for light-duty sorting applications. Its specialized roller top surface facilitates smooth product transfer, significantly reducing friction and minimizing potential damage to delicate items. Designed for versatility and durability, the belt is suitable for a wide range of industries including food processing, packaging, and manufacturing, offering a maintenance-free solution that enhances operational efficiency.

Technical Specifications

Max Load Capacity

1.2 tons/sqm
Max Load

Pitch	25 mm
Thickness	12.7 mm
Rod Diameter	4 mm
Minimum Width	180 mm
Open Area	0 %
Working Temperature	-40 to 260

Materials and Compliance

Available Colors

White • Blue • Gray • Nature • Dark-brown

Material Composition

PP, POM, PE, PA

Regulatory Compliance

FDA Approved, EU Compliant

Configuration

Sprocket Compatibility

- 16T Sprocket
- 18T Sprocket
- Square Bore
- Round Bore

Belt Features

Feature	Status
Flight	No
Side Guard	No
Curve Capability	No

Applications

Suitable Industries

- Meat & Poultry Processing
- Seafood Processing
- Bakery & Snack Food
- Fruit & Vegetable Handling
- Automotive & Tire Manufacturing
- Packaging & Printing
- Postal & Logistics
- Corrugated Cardboard
- Can & PET Manufacturing
- Textile
