

Rolling Metal Utility Cart with Wire Basket

This rolling utility cart features a durable metal frame and a wire basket. It is equipped with four swivel casters for easy movement and is suitable for workshops, garages, or spaces needing mobile storage.

Product Overview

Versatile Mobile Storage

This rolling utility cart is designed for efficient organization in demanding environments such as workshops and garages. It features a robust metal frame with rounded corners for safety and a high-capacity wire basket that ensures excellent ventilation and visibility of stored contents. Equipped with four swivel casters, the cart offers superior maneuverability for seamless transport of tools and supplies.
