Product Overview

High-Performance Cooling Solution

This electric motor is engineered specifically for room cooler applications, offering a robust construction designed for long-term durability and reliable performance. It features optimized power consumption to ensure efficient operation while maintaining consistent cooling output. With its versatile mounting system and standardized electrical connections, this motor is an ideal component for a wide range of residential and commercial cooling units.

Technical Specifications

Key Performance Indicators

2018

Manufacturing Year

Wiring Identification

Yellow, Black, Blue

Installation Details

Installation Compatibility

- Robust mounting base
- Pre-drilled holes for secure placement
- Multiple mounting points
- Pre-wired leads for easy connection

Design and Build

Exterior Finish

Black Finish • Durable Construction
