

Rotary Cutter Gearbox for Agricultural Machinery

This rotary cutter gearbox is designed for GTM-6FT rotary cutters and other compatible machinery. It features a robust construction for durability and efficient power transmission.

Overview

High-Performance Agricultural Gearbox

This high-performance rotary cutter gearbox is engineered for reliable power transmission in demanding agricultural environments. Designed to support a variety of machinery including rotary cutters, finish mowers, and tillers, it delivers consistent speed and torque output. Its robust construction ensures long-term durability, making it an essential component for efficient vegetation management and field maintenance.

Technical Specifications

Gear Ratio	1:1.92
Input Torque	583 NM
Output Torque	303 NM
Weight	17 Kg

Compatibility

Compatible Applications	Rotary cutter, Finish mower, Disc mower, Slasher mower, Rotary tiller
-------------------------	---

Logistics

Packaging Details

Item	Details
Packaging Type	Standard export wooden crate
Quantity per Crate	50pcs
Dimensions	100*100*68cm

Order Terms

- Minimum Order Quantity: 200pcs
- Lead Time: 35-45 days
