Product Overview

Precision Rotary Die Grinder

This high-performance rotary die grinder is engineered for precision tasks including grinding, sanding, honing, and polishing. Featuring a robust 180W motor with 6-speed constant power control, it provides consistent performance across various materials such as metal, plastic, and wood. Its ergonomic, streamlined design includes a soft leather grip to ensure comfort and reduce operator fatigue during extended use.

Technical Specifications

Power Output	180 W
Speed Control	6-speed constant power control

Design & Ergonomics

Grip Material	Soft leather
Body Style	Streamlined ergonomic fuselage

Maintenance & Cooling

Cooling Mechanism

- Front and rear double-row multi-slot air inlets
- Maze dust-proof design

Applications

Ideal Applications	Deburring, Chamfering, Polishing, Rust Removal, Coating Removal
