

# Rotary Polishing Machine

This machine tool is designed for polishing and buffing surfaces. It features a rotary motion and is equipped with a polishing pad.

## Overview

### Professional Rotary Polishing Machine

This high-performance rotary polishing machine is engineered for precision surface finishing and automotive detailing. Featuring a robust 1200W motor and adjustable speed settings, it provides the consistent power required for demanding buffing tasks. The ergonomic design includes a control handle and protective guard, ensuring operator safety and ease of use during extended operation.

## Technical Specifications

Input Power	1200 W
Disc Diameter	180 mm
No Load Speed	600-3000
Voltage/Frequency	220V-240V/50Hz
Weight	3.2 kg

## Features

### Typical Applications

- Automotive Detailing
- Surface Finishing
- Polishing
- Buffing

### Key Features

Rotary Motion, Adjustable Speed, Ergonomic Handle, Protective Guard
