

Rotary Tiller KB500TH

The KB500TH rotary tiller is a robust agricultural machine designed for soil preparation and cultivation. It features adjustable tilling depth and width for versatile use in gardens, small farms, and landscaping projects.

Overview

Rotary Tiller KB500TH

The KB500TH rotary tiller is a robust and efficient agricultural machine designed for professional soil preparation and cultivation. It features a powerful engine for effective tilling in various soil conditions, making it ideal for breaking up compacted soil and preparing seedbeds. With adjustable tilling depth and width, this tiller offers versatile use for gardens, small farms, and landscaping projects.

Performance

Tilling Depth	12 cm
Tilling Scope	80-110 cm
Blade Diameter	33 cm
Transmission Speeds	Forward: 2, Neutral: 0, Reverse: 1

Engine & Power

Rated Output

6.5 HP

Rated Output

Engine Model	GP200 (HONDA)
Displacement	196 cc
Fuel Consumption	d374g/kw.h

Technical Specs

Fuel Tank Capacity	3.6 L
Oil Capacity	0.6 L
Driving Method	Pulley transmit
Starting Mechanism	Recoil

Logistics

Weight (Gross/Net)

Type	Weight
Gross Weight	71
Net Weight	64

Container Loading

- 20GP: 105 units
- 40HQ: 210 units

Dimensions

825 x 465 x 690 mm
