

Rotatable Sports Armband Phone Holder

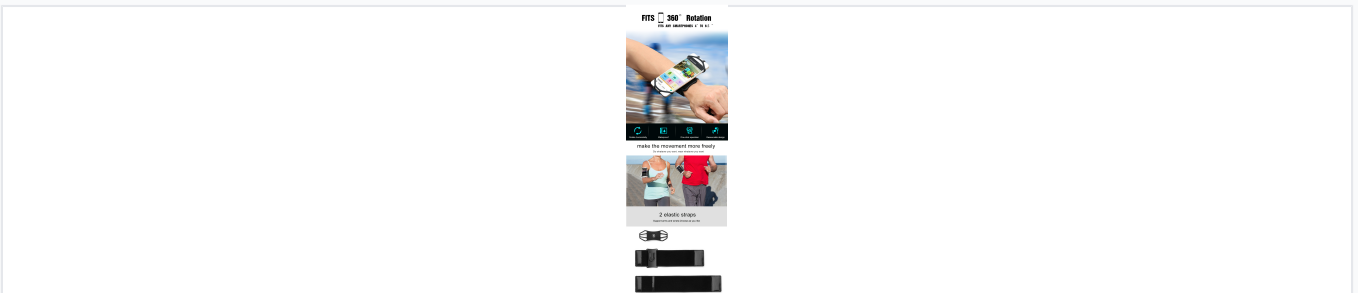

This sports armband features a rotatable phone mount for easy viewing during workouts. It is designed with removable silicone holder and adjustable straps for comfortable wear on either the wrist or arm.

ADDITIONAL IMAGES

Product Overview

Supports both arm and wrist wear with 360-degree rotation for optimal viewing angles.

Versatile Sports Phone Mount

This rotatable sports phone holder is engineered for athletes, offering a secure and convenient way to carry your smartphone during running, jumping, and intense workouts. Featuring 360-degree rotation and a detachable silicone design, it allows for seamless transitions between portrait and landscape modes with a quick-click mechanism. The high-elasticity strap system ensures a stable, pressure-relieving fit on both wrists and arms, providing comfort and preventing slippage during movement.

Technical Specifications

Durable silicone construction tested for high elasticity and long-term use.
