

Rotavator Cover Furrow Spare Part

This cover furrow is a spare part for DH246F Heavy Plus rotavators. It is precision-engineered for efficient soil turning and furrow creation.

Product Overview

Precision-engineered furrow cover designed for seamless integration with Dh246f Heavy Plus systems.

Professional Rotavator Furrow Cover

This premium-grade furrow cover is specifically engineered as a reliable spare part for Dh246f Heavy Plus agricultural rotavators. Designed for durability in demanding soil conditions, it facilitates efficient soil turning and precise furrow creation. This component is essential for maintaining machine productivity, ensuring a seamless fit and robust performance during intensive cultivation tasks.

Technical Specifications

Part Identification Numbers

- 25580
- 41A
- W95-74
- 55021

Compatibility

Dh246f Heavy Plus

Application Scope

Compatible Machinery Types

- Rotary tillers
- Paddy field stubble-bury beaters
- Paddy field ridge shapers
- Tractors
- Harvesters
