

Rotavator Housing Bearing

Yancheng Luckyster Import & Export Co., Ltd

This housing bearing is a spare part for rotary tillers. It is compatible with Rotary Rx164 and Rx163 models.

Product Overview

High-Performance Rotavator Housing Bearing

This premium housing bearing is a critical spare part engineered for use in agricultural rotary tillers. Designed to provide smooth rotational support, it ensures the consistent and reliable operation of soil cultivation machinery. Built for durability, this component is essential for maintaining optimal equipment performance in demanding field conditions.

Technical Specifications

Precision-engineered housing bearing for reliable agricultural performance.

Compatible Models

- Rotary Rx163
- Rotary Rx164

Component Category

Rotavator Housing Bearing

Material

High-durability metal

Application

Primary Application

Soil Preparation, Agricultural Cultivation, Rotary Tiller Maintenance
