

Rotor Adapter for Barmac VSI Crusher

This rotor adapter is designed for Barmac VSI crushers. It ensures proper fit and functionality within the rotor assembly.

ADDITIONAL IMAGES

Product Overview

Range of essential spare parts for VSI crusher maintenance.

High-Performance Rotor Adapter

This rotor adapter is precision-engineered specifically for use with Barmac VSI crusher B7150 units. Designed for durability in demanding aggregate processing and mining environments, it ensures the consistent performance and structural integrity of the crusher rotor assembly. Each component is manufactured using stringent quality management processes to ensure a reliable, long-lasting fit that minimizes costly equipment downtime.

Technical Specifications

Precision-engineered components designed for long-term wear resistance.

Compatible Equipment	Barmac VSI Crusher B7150
Key Material Properties	High Wear Resistance, Durable Casting, OEM-Standard Specifications

Manufacturing & Quality

Annual Production Capacity

30000 tons

Annual Production

Quality Certifications

ISO Certified • SGS Verified • CE Compliant

Manufacturing Process

- Moulding
- Pouring
- Heat Treatment
- Machining Inspection
- Non-Destructive Testing
- Final Delivery

Logistics & Support

Hidden Defect Warranty	12 months from operation
Port Delivery Lead Time	1 day to departure port
