

Round Fiber Grinding Disc

This round fiber grinding disc is designed for grinding applications. It is marked with 'Max 80 M/S' indicating the maximum operating speed and abrasive grade 'P 60 A'.

Product Overview

High-Performance Fiber Grinding Disc

This round fiber grinding disc is engineered for heavy-duty grinding applications that require high flexibility and conformability. Featuring a specialized abrasive grain, it is designed to deliver consistent material removal while adapting to contoured surfaces. With a rated maximum speed of 80 M/S, this disc ensures professional-grade performance and efficiency for various finishing tasks.
