

Round Heating Element 1500W-3000W

This is a round heater element with a rating of 220V-240V. It has outline sizes of 153mm in diameter and 12.5mm in thickness.

Model: A11M4013
Rating: 220V-240V 230V 1500W 1850W-2200W 3000W
Outline Sizes(mm): $\phi 153 \times 12.5$

Overview

High-Efficiency Round Heating Element

This round heating element is designed for robust performance in industrial and commercial heating applications. It offers versatile power options ranging from 1500W to 3000W, ensuring compatibility with various thermal requirements. With a compact form factor of 153mm in diameter, it is engineered for reliable heat exchange efficiency.

Technical Specifications

Power Rating Options

- 1500W
- 1850W-2200W
- 3000W

Model Number	A11M4013
Voltage Rating	220V, 230V, 240V

Dimensions

Diameter	153 mm
Thickness	12.5 mm
