Product Overview

Versatile Round LED Lighting Module

This high-efficiency round LED lighting module is engineered for uniform illumination in professional and decorative fixtures. Designed with a circular array of high-quality LEDs and a durable chassis, the unit ensures consistent brightness and long-lasting performance. With integrated mounting points and efficient heat dissipation, it offers a reliable solution for ceiling and pendant lighting applications.

Technical Specifications

Key Features	Uniform Illumination, Energy-Efficient, Heat Dissipation Design, Easy Installation
Installation	Central mounting point

Applications

Typical Applications

- Ceiling lights
- Pendant lights
- Decorative lighting fixtures
