

Round Point Digging Shovel with Long Handle

This round point shovel is equipped with a durable steel blade and a long, sturdy wooden handle. It is designed for digging, moving, and lifting materials such as soil, gravel, and sand.

Product Overview

Professional Grade Round Point Shovel

This round point digging shovel is engineered for heavy-duty landscaping, gardening, and construction tasks. Featuring a high-strength carbon steel head with a heat-treated finish, it offers excellent durability for moving soil, gravel, and sand. The 48-inch long wooden handle provides optimal leverage and reach for efficient, comfortable operation.
