

# Round Point Digging Shovel with Long Handle

This round point shovel features a durable steel blade, ideal for digging and moving materials. Its long handle provides optimal leverage and comfort for various gardening and landscaping tasks.

## Product Overview

### Professional Grade Digging Tool

This heavy-duty round point shovel is engineered for demanding landscaping and gardening applications. Featuring a hardened carbon steel blade with an extra step for added leverage, it excels at digging, planting, and material handling. The ergonomic 48-inch ash wood handle provides professional-grade reach and durability for consistent use in rugged environments.

## Technical Specifications

### Blade Hardness

**40 HRC**  
Minimum HRC

**50 HRC**  
Maximum HRC

Item Number	YN-8SJ3-67L
Blade Material	Carbon Steel
Handle Material	Hard wood / Ash wood
Handle Length	48 inches

## Design Features

### Key Features

- Extra step for increased digging pressure
- Varnished blade finish for corrosion resistance
- Reinforced collar connection
- Ergonomic 9-inch grip

Construction Details	Varnished, Shaped Handle, Reinforced
