Product Overview

Professional Catering Chafing Dish

This round stainless steel chafing dish is engineered for durability and consistent performance in demanding catering environments. It features a specialized water-stop tank to manage condensation and an anti-jam tray design for seamless operation. With its sturdy construction and ergonomic hydraulic lid mechanism, this unit provides a reliable and cost-effective solution for maintaining optimal food serving temperatures.

Construction & Design

Design Features

- Crimped smooth edges (no welding)
- Water-stop tank
- Hydraulic lid mechanism
- Anti-jam tray design

Material

Stainless Steel, Corrosion Resistant

Performance

Heat Management

1 count

Fuel Holder

Safety and Stability

- Anti-fatigue lid design
- Sturdy stable legs
- Fuel snuffer included
- Cool-touch handle
