

Rounded Edge Polished Brass Rocker Light Switch

This light switch features a rounded edge design and is constructed from polished brass. It uses a rocker to control the flow of electricity to the connected light.

Product Overview

Elegant Polished Brass Design

This premium rocker light switch features a timeless polished brass finish with sophisticated rounded edges. Engineered for professional environments, it incorporates a clear red indicator light to provide status visibility at a glance. Its durable construction and aesthetic appeal make it an ideal choice for high-end commercial or residential lighting control installations.
