Product Overview

Professional Grade Triple-Lock Tape Measure

This high-performance tape measure is engineered for durability and precision in demanding B2B environments. It features a unique, patented triple locking system with three stop buttons for maximum control and convenience during measurement. The rugged ABS case is protected by a rubber jacket for enhanced grip and impact resistance, while the nylon-coated blade ensures long-lasting operation and wear resistance.

Key Features

Locking Mechanism

3 qty

Stop Buttons

Special Features

Triple Locking System, Patented Design, Anti-Slip Grip, Impact Resistant

Construction & Materials

Case Construction	ABS with Rubber Jacket
Blade Coating	Nylon Coat
Blade Thickness After Treatment	0.145 mm

Options & Customization

Available Upgrades

- UV chrome plated decorating ring around sticker label
- UV chrome plated case

Measurement Capabilities

Scales

Metric (Meters) • Imperial (Feet/Inches)

Standard Lengths

- 3m
- 4m
- 5m / 16'
- 7.5m / 25'

Precision Standards

Part of our precision measurement tool range for engineering and quality control.

Complementary high-precision instruments for manufacturing applications.

Hardened stainless steel dial calipers for accurate internal and external dimensions.

Part of a Professional Precision Range

This tape measure is part of a wider suite of precision measuring instruments designed for manufacturing, engineering, and quality control. Alongside digital calipers, micrometers, and dial indicators, it provides the accuracy required for professional-grade layout and inspection tasks.
