Product Overview

Rugged Illumination Solution

This high-performance rubberized flashlight is engineered for durability and reliable performance in demanding environments. Featuring a shock-resistant and waterproof construction, it is built to withstand rigorous daily use. With an impressive 140-hour battery life and an ergonomic lanyard design, it serves as an essential tool for emergency, industrial, and outdoor applications.

Technical Specifications

Maximum Runtime

140 hours
Continuous Light

Battery Requirements

2 x 1.5V D Batteries

Key Features

Waterproof, Shock-Resistant, Rubberized Grip, Portable Lanyard

Material and Design

Design Advantages

- Enhanced impact resistance
- Non-slip rubberized body for secure grip
- Integrated lanyard for convenient carrying

Housing Material

Durable Rubberized PTE
