

Rugged Waterproof Digital Camera

This rugged digital camera is designed for outdoor use. It features a 14.0-megapixel sensor and a 4x wide optical zoom lens.

Overview

Rugged Digital Imaging Solution

This rugged digital camera is engineered to withstand challenging environments, offering protection against dust, water, and impact. Featuring a 14-megapixel sensor and a versatile 4x optical zoom lens, it delivers high-resolution imagery in a compact form factor. Designed for reliability, this device is an ideal tool for field operations where durability is just as important as image quality.

Key Metrics

Sensor Resolution

14 MP

Megapixels

Optical Zoom

4 x

Optical Zoom

Durability

Protection Ratings Waterproof (5m), Shockproof (1.5m), Dustproof

Optical Specifications

Lens Construction	7 groups of 8 lenses
Equivalent Focal Length	25 - 100mm
Aperture Range	f/3.1 (W) - f/5.9 (T)
Shutter Speed	15 - 1/2000 seconds

Display & Sensor

Sensor Type	1/2.33 inch CCD
Max Photo Resolution	4320 x 3240
LCD Screen	2.7 inch, 230,000 pixels
