

RV Exterior Porch Light

This RV porch light provides bright and efficient illumination for a recreational vehicle's exterior. The LED technology ensures long-lasting performance and low power consumption.

Product Overview

High-Efficiency RV Illumination

This LED porch light is engineered for recreational vehicles, offering a compact and durable solution for exterior lighting. With a low power consumption of 3-3.5W and a bright output of 280 lumens, it ensures efficient illumination for entryways and outdoor spaces. The weather-resistant ABS and PC construction provides long-lasting reliability for various travel environments.

Technical Specifications

Power Consumption	3.5 W
Lumen Output	280 lm
Operating Voltage	10-24V
LED Quantity	24
Color Temperature	6000-6500K

Materials & Design

Available Colors

White • Black

Housing Material	ABS, PC
------------------	---------

General Information

Warranty Period	1 Year
Model Number	RVPL
