

S14 LED Filament Bulb

The S14 LED filament bulb provides a vintage look with its clear glass enclosure and advanced LED technology. It emits a warm, inviting light suitable for decorative applications, string lights, and ambient lighting.

Product Overview

Modern Vintage Lighting

The S14 LED Filament Bulb combines the aesthetic charm of traditional vintage lighting with the efficiency of modern LED technology. Encased in a clear glass bulb, this product provides warm, inviting illumination perfect for decorative string lights and ambient commercial settings. Its durable, energy-efficient construction ensures a long lifespan while significantly reducing electricity consumption compared to standard incandescent alternatives.

Technical Specifications
