

Sanding Discs with PSA and Hook & Loop Backing

These sanding discs feature either a pressure-sensitive adhesive (PSA) or hook and loop backing for easy attachment. They are available in multiple grits and sizes, with pre-punched holes for dust extraction.

Product Overview

Professional Abrasive Solutions

These sanding discs are engineered for versatile surface preparation and finishing tasks. Featuring both pressure-sensitive adhesive (PSA) and hook-and-loop backing options, they offer secure attachment for a wide variety of sanders and pads. The discs are constructed with durable abrasive materials and incorporate pre-punched holes to optimize dust extraction during operation.
