

Sanding Material with Multiple Grain & Backing Options

This sanding material is available in grain types such as Aluminum Oxide and Silicon Carbide. It offers backing options like Cotton Cloth and Polyester for use on metal, wood and other materials in both machinery and hand operations.

Product Overview

Versatile Sanding Solutions

This sanding material is engineered for a wide range of industrial and professional applications, supporting both machinery and manual operations. With multiple grain and backing options available, it offers flexibility for processing materials from wood and metal to glass and leather. Designed for high strength and stability, this product delivers consistent performance across various grit ranges.

Technical Specifications

Grit Range

- P1000
- P800
- P600
- P500
- P400
- P320
- P240
- P220
- P180
- P150
- P120
- P100
- P80
- P60

Available Grain Types

Aluminum Oxide, Silicon Carbide, Zirconia Aluminum, Calcined A/O

Backing Materials

Cotton Cloth, Blending Cloth, Polyester, Paper Backing

Performance & Usage

Suitable Applications

Metal • Wood • Textile • Glass • HDF/MDF • Plaster • Leather

Key Performance Features

1 High

Strength & Stability

Operation Modes

Machinery Use, Hand Use

Moisture Resistance

Wet or Dry

Standard Width

1420 mm
