

# Sapphire Mobile Phone Screen Panel

Sapphire mobile phone screen panels offer exceptional scratch resistance and durability. These precision-cut panels provide superior optical transmittance for enhanced display quality.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Sapphire Panel

Engineered for superior durability and optical performance, this sapphire mobile phone panel offers exceptional scratch resistance for premium mobile devices. The panel is precision-crafted to ensure high light transmittance, maintaining display clarity while providing robust screen protection. Designed for high-end electronic applications, it meets stringent quality standards for long-term reliability in demanding environments.

## Manufacturing Specifications

### Monthly Production Capacity

**150000 PCS**

Mobile Phone Panel

### Certifications

ISO 9001:2008, ISO 14001:2004, ISO/TS 16949:2009

### Production Environment

Dust-free clean production workshop

## Production Equipment

### Grinding and Polishing

- 9B Grinding miller
- 16B Polishing machine
