Product Overview

High-Performance Satellite Antenna

This satellite dish antenna is engineered for superior signal reception and long-term durability in diverse environmental conditions. Featuring high-precision adjustment capabilities and a robust powder-coated finish, it offers excellent stability and wind resistance. The design is versatile and customizable, making it suitable for a wide range of residential and commercial satellite communication requirements.

Technical Specifications

Available Sizes	30cm to 120cm
Coating Finish	Polyester Powder Coating

Installation

Mounting Types	Ground, Pole, Wall
----------------	--------------------

Performance Features

Primary Advantages

- High signal gain
- Excellent anti-corrosion properties
- High wind resistance
- High-precision alignment adjustment

Compliance Badges

ISO 9002 • CNAS • IAF
