

SC1500 2.4V Ni-Cd Rechargeable Battery Pack

This Ni-Cd rechargeable battery pack has a SC1500 designation with 2.4V power. The cylindrical cell configuration makes it suitable for applications needing reliable performance and high energy density.

Overview

Reliable Power Solution

The SC1500 2.4V Ni-Cd rechargeable battery pack is engineered for consistent performance in demanding environments. Designed with a cylindrical cell configuration, this pack offers a balance of energy density and durability suitable for professional applications. It serves as an ideal power source for emergency lighting systems, power tools, and various portable electronic devices.

Technical Specifications

Nominal Voltage	2.4 V
Capacity	2 mAh
Chemistry	Ni-Cd (Nickel-Cadmium)
Cell Type	SC (Sub-C)

Applications

Recommended Applications	Power Tools, Emergency Lighting, Portable Electronics
--------------------------	---

Key Features

Performance Highlights

2.4 V Voltage	1500 SC Model Rating
