

Scrolling Light Box with Aluminum Frame

Scrolling light box designed with an aluminum frame and suspended mounting. It is ideal for displaying promotional graphics with enhanced visibility thanks to its back illumination.

Product Overview

Professional Indoor Advertising Solution

This scrolling light box features a premium aluminum frame, designed to provide high-visibility illumination for promotional graphics. The integrated scrolling system allows for dynamic display cycles, making it ideal for retail environments, exhibitions, and high-traffic commercial spaces. With its versatile suspended mounting, this unit offers a clean and professional aesthetic that enhances brand messaging in indoor settings.
