

SDS Plus Concrete Drill Bit

This SDS Plus drill bit is designed for drilling into concrete, masonry, and stone. The bit features a robust carbide tip for extended life and efficient material removal.

Product Overview

High-Performance SDS Plus Drill Bit

This SDS Plus drill bit is engineered for professional drilling applications in concrete, masonry, and stone. Featuring a durable 40CR steel body and a high-grade YG8 carbide blade, it provides excellent longevity and resistance to wear. The optimized flute design facilitates rapid dust extraction and low-vibration performance, making it the ideal choice for rotary hammer drills.

Technical Specifications

Compatibility

SDS Plus Rotary Hammers

Flute Configuration

- FLUTE U
- FLUTE L
- FLUTE W

Material Composition

40CR Steel Body, YG8 Carbide Blade

Available Size Range

4mm x 100mm to 25mm x 600mm
